Python · FastAPI · Groq API · Supabase · PostgreSQL · Tailwind CSS · Telegram Bot API · Render

- Built autonomous AI routing system that converts unstructured thoughts into actionable tasks and analytical journal entries using Groq Llama-3.1-8b with structured JSON-based response enforcement.
- Integrated FastAPI backend, Supabase PostgreSQL with Row-Level Security (RLS), Telegram Bot API, and a responsive Tailwind CSS web interface — handling full-stack architecture end to end.
- Designed AI-powered productivity analysis engine generating behavioral insights from task and journal history; managed deployment, debugging, API integration, and prompt optimization on Render.

EXPERIENCE

Content Writing Intern — InAmigos Foundation (Virtual)

Mar 2026 – Apr 2026

- Created persuasive, socially impactful content for donation and outreach campaigns; used AI tools including Claude for content refinement and grammatical optimization.
- Contributed articles for awareness and fundraising initiatives, building strong analytical writing and audience engagement skills.

LEADERSHIP & VOLUNTEERING

Student Volunteer — NSS Central University of Andhra Pradesh

- Led anchoring for NSS Day 2025 attended by students and faculty; coordinated volunteer activities, logistics, and event execution for Swachhata campaigns and cleanliness drives.
- Supported university-level events including admissions, sports week, and cultural functions — managing registration, crowd coordination, and operational execution.
